**Intel still has a lot to prove to Wall Street one year after Pat Gelsinger came home**  
Intel Corp. had a rough 2021, and it looks like the chip maker will still face Wall Street criticism in 2022 for its ambitious capital investment plan and the success of competitors amid continuing delayed releases.

**Ohio's come-from-behind win on Intel**  
Ohio was not top of mind when Intel started scouting for its first greenfield semiconductor manufacturing site in 40 years. Here's how the Buckeye State came from behind to win.

**Intel's \$20 bln Ohio factory could become world's largest chip plant**  
Intel Corp said on Friday it would invest up to \$100 billion to build potentially the world's largest chip-making complex in Ohio, looking to boost capacity as a global shortage of semiconductors affects everything from smartphones to cars.

**Intel's move into Ohio brings new tech kudos, competition for talent**  
Intel Corp's plan to build a \$20 billion chip-making complex on the outskirts of Columbus, Ohio is the clearest sign of a burgeoning tech sector in the U.S. Midwest, a development that is sure to raise corporate competition for workers and resources. The Intel investment is the state's largest ever, but the Columbus suburb of New Albany, where Intel will build two chip f [...]

**Ohio Gov. DeWine applauds Intel for largest-ever single investment in state history**  
The \$20 billion investment is part of Intel's \$100 billion investment pledge as the company seeks to reclaim its spot as the top chip manufacturer.

Description

Intel Corporation is an American multinational corporation and technology company headquartered in Santa Clara, California. It is the world's largest semiconductor chip manufacturer by revenue, and is the developer of the x86 series of microprocessors, the processors found in most personal computers.
